REQUEST FOR CERTIFICATE OF CORRECTION
PURSUANT TO 37 C.F.R. § 1.322

Dear Sir:

Upon reviewing the above-identified patent, Patentee noted the errors described below, which the Patentee respectfully requests to be corrected.

On March 10, 2006, the Examiner called Applicants' representatives and informed them that the application was in condition for allowance, except for an amendment to claims 59 and 89, which corresponds to claims 1 and 31 of the instant patent, to delete the phrase "provided that the exogenous nucleic acid molecule is not introduced by particle bombardment." The Examiner indicated that she would make the amendment by Examiner's Amendment.

In the Notice of Allowability mailed April 12, 2006, in the paragraph bridging pages 2-3, the phrase quoted above had been amended.

JUN 19 2007

The patent, however, issued with this recited phrase in the claims and, thus, do not reflect the amendment that the Examiner made by Examiner's Amendment to claims 59 and 89 of the application (corresponding to issued claims 1 and 31). Accordingly, Patentee respectfully requests that the following changes be made in the claims by issuance of a Certificate of Correction pursuant to 35 U.S.C. § 254:

Column 28, lines 12-14, please delete the text "provided that the exogenous nucleic acid molecule is not introduced by particle bombardment,"

Column 29, lines 53-55, please delete the text "provided that the exogenous nucleic acid molecule is not introduced by particle bombardment,"

Transmitted herewith are two copies of a proposed Certificate of Correction effecting such amendment. Patentee respectfully requests that the Patent Office grant the requested Certificate of Correction.

No fees are believed to be due in connection with this matter; however, if any fees are due, please charge the requisite amount to Deposit Account No. 08-0219.

Date: June 14, 2007

Respectfully submitted,

By 

Colleen Superko
